

SLSCO, LTD.
TOTAL DISASTER RECOVERY SOLUTIONS

Major disaster such as Hurricane Harvey bring enormous challenges in recovery efforts. Effective and expedient recovery and restoration requires a comprehensive effort and demands distinct performance. SLS has the capability to streamline and execute the process along the entire timeline of recovery from initial response to long-term recovery. We are adept at providing clients, both private and public, with the right type of required services to assist in recovery. This is based on years of experience in responding to disasters such as Hurricanes Katrina, Rita, Ike

and Sandy. Among other services provided by our wholly-owned sister companies (DRC Emergency Services - debris management) and Callan Marine (marine construction), SLS can provide immediate housing solutions across the spectrum of need, including on-site man camps and modular housing, shelter in place rehabilitation services, emergency MHU developments, home elevation, site-built rehabilitation and site-built reconstruction, as well as the emergency restoration of operational facilities, utilities and infrastructure.

The following are advantages and resources we can provide regarding immediate on-site emergency housing recovery services relevant to Hurricane Harvey:

- ❖ SLS is based in Galveston, with major operational bases in Houston, Southeast Texas, Central Texas and along the entire Gulf Coast. All of our facilities are in-tact and operational.
- ❖ Over 350 pieces of operational construction vehicles and equipment located within 2 hours of the disaster. This includes dozers, excavators, trucks, boats and other types of critical heavy machinery. We have another 500+ pieces of equipment located within 12 or less of the disaster.
- ❖ Over 1,000 temporary housing shelters and support assets located within 12 hours of the disaster, including tents, modular units, MHUs, kitchen & laundry facilities, showers, bathroom facilities, generators, light systems, etc.
- ❖ Over 250+ personnel located within 3 hours or less from the disaster. Another 200+ employees are located within 12 hours of the disaster.
- ❖ Immediate mobilization of personnel, resources, equipment and housing units. Personnel can begin working and assets can be deployed within 6 hours of notification.
